

Product: Air Bag Isolation Tool

Pipe Schedule: All Schedules

Size Range: 6" - 36" (Larger & smaller sizes on request)

The IK ABiS™ isolation system has been designed for isolation purposes when welding on hydrocarbon systems.

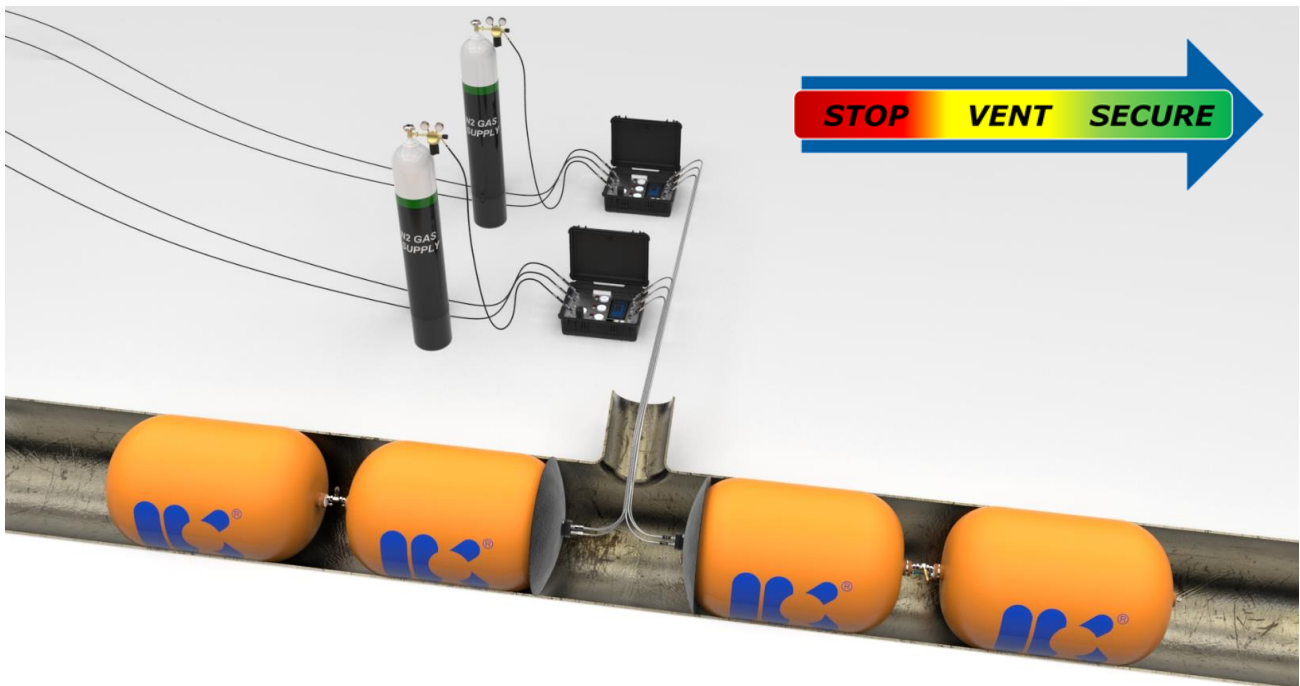

It incorporates the functions of a double block & bleed barrier (DB&B) whilst constantly purging and monitoring the LEL% between the 2 barriers.

General Function and Application

- Double Barrier & Bleed function (DBB)
- Back pressure/ differential pressure control
- Central Bypass facility to vent gasses
- Operates in multiple pipe sizes
- Navigates through bends and reducers
- Provides a safe working environment with an integrated LEL alarm function
- Withstands Heat treatment up to 600°C
- Constant purge & monitoring system

AVAILABLE FOR HIRE

IK have a range of Air Bag Isolation Systems available for hire
