

Resato Portable Mini Pump

Product: **Resato Lightweight Portable Mini Pump Unit Type MPS up to 2500 bar**

Resato's new lightweight mini pump unit is available in four pressure ranges up to 1800 bar at 7 bar air drive pressure and 2500 bar at 10 bar air drive pressure

The Resato mini pump unit type MPS can be used for bolt tensioning and pressure testing. It can also be used for operation of hydraulic cylinders or jacks. A detachable hand lever ensures operation if no air is available. The weight of the unit is below 17 kg with a filled tank, which makes it easy to carry even on stairs. All components, including the required connecting materials and tubing are mounted in a solid plastic closed frame. The Resato mini pump unit type MPS is manufactured according to European regulations and will be delivered including:

- Operating manual, maintenance manual and spare parts manual
- Test certificate
- Calibration certificates for high pressure gauge

Key Features

- Ready-to-use weight of less than 17 kg
- Lightweight, easy to carry
- Low noise level
- Suitable for pressurizing oil, water or other fluids
- Several pressure ranges available
- All parts made of non-corrosive materials
- All operating features panel mounted
- Completely closed frame
