

Twin Tyre Flexible Plug

www.ik-worldwide.com

Product: TWIN TYRE FLEXIBLE ISOLATION PLUG

Pipe Schedule: VARIOUS

Size Range: 4" through 28" (*Larger sizes on request*)

It is often very difficult to create a safe environment for performing hot work on existing pipelines carrying hydro-carbon resources.

IK's Twin Tyre Flexible Isolation Plug is a simple, reliable and economical tool for providing positive and proven isolation before hot work commences.

It can be installed horizontally or vertically and is even capable of negotiating a bend or Miter joint in the pipeline pending operational requirements.

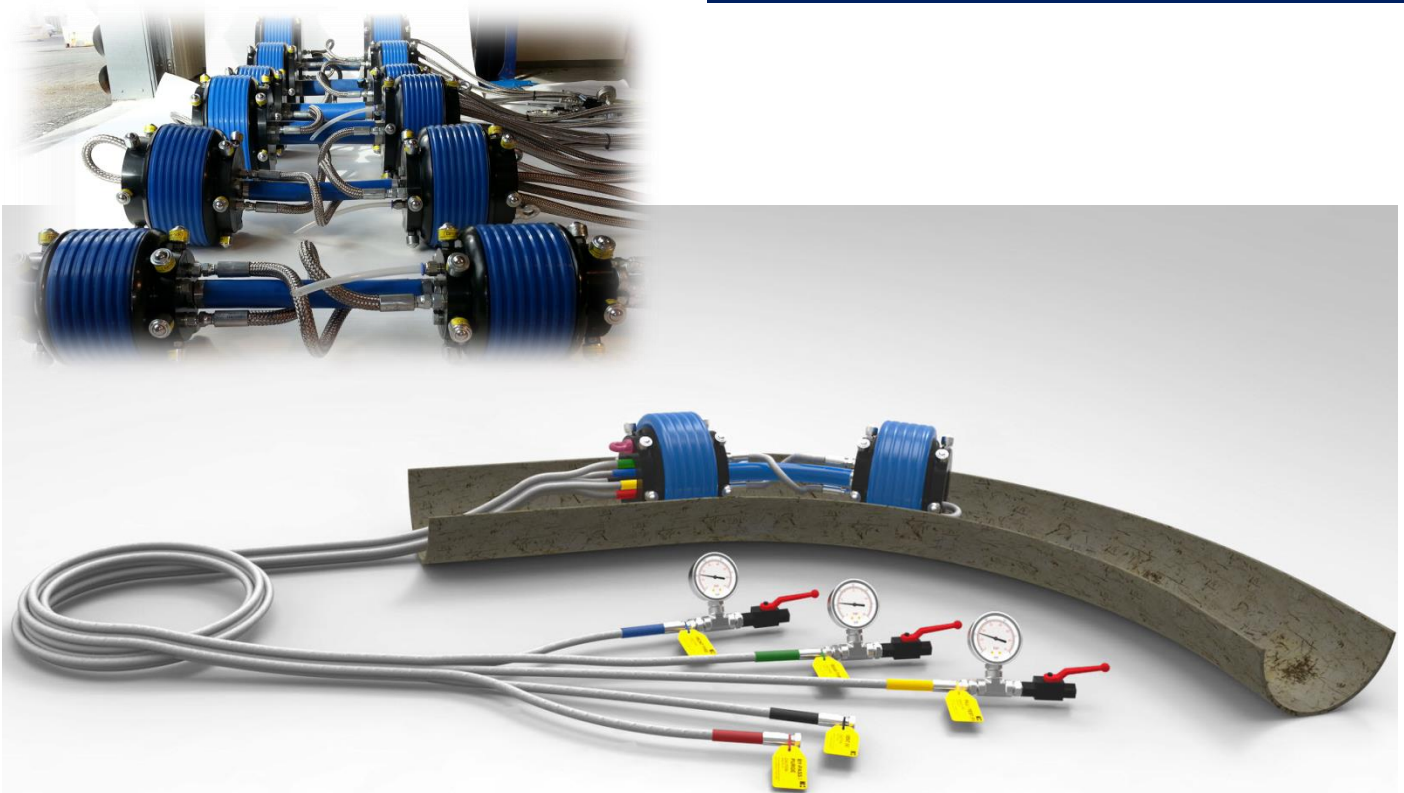

For further information please contact our Sales Team.

General Function and Application:

- Double Block & Bleed isolation via two tyres
- Central Bypass facility to vent gasses
- Can hold up to 3 bar between tyres
- Will hold a differential pressure of 5 bar
- Navigates through 90° short/long radius elbows
- Can be used in multi schedule pipes
- Provides a safe working environment
- User instructions and hydrostatic test certificates are supplied with the tool.

AVAILABLE FOR HIRE
