

Tank Nozzle Joint/Weld Tester

www.ik-worldwide.com

Product: TANK NOZZLE JOINT/WELD TESTER

Pipe Schedule: VARIOUS

Size Range: 6" through 24" (*Larger sizes on request*)

IK's Tank Nozzle Testers reduce the cost by carrying out localised pressure testing on new and existing branch outlet flanges and pipe components for hydrostatic test

Each test utilises a minimum amount of water.

The body is manufactured from high grade carbon steel.

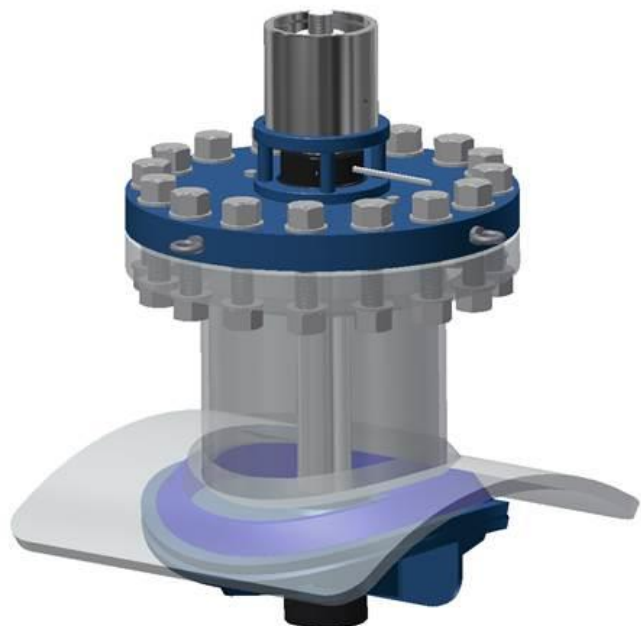

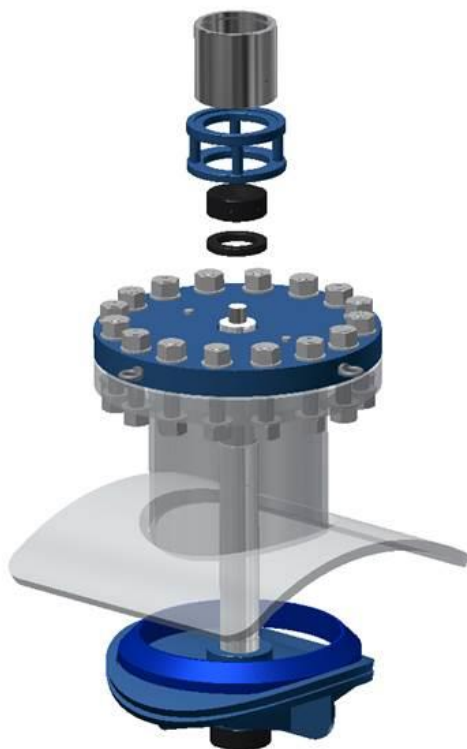

The seals are manufactured from high performance polyurethane elastomer.

General Function and Application

- Tools capable of carrying out horizontal, vertical and inclined applications.
- Non-standard sizes available – *please request Information.*
- No special tools required.
- Easy to install and remove.
- Manual or hydraulic actuation.
- Suitable for use with most test mediums.
- Can be used in a range of pipe schedules.
- Instructions and hydrostatic test test certificates supplied.
